Philadelphia, 5th January, 1885.

Sir,

A lot of Silver bars (Invoiced 208) was received 2nd, 3rd December 1884, and after being debited to me, were deposited as usual on the stone floor, in front (North) of Mr Cochran's room. When we wished to employ them on Saturday last, the 3rd January, 1885, three of the bars could not be found, nor can we find any account of their use for melting or refining. Nevertheless their apparent, if not real, loss necessarily awakens in me much anxiety of mind. when I observe the large number of silver bars lying on the stone floor, and debited to me. I am the more anxious when I learn that we have had strange workmen in the Mint continuing their work until the darkness of 6. P. M.

Very Respectfully
